

YOU ARE INVITED TO ATTEND

OPDEC's Pro Tool Session

Wednesday, May 31st in the Exhibition Hall lunch area at 12:30

In this Session we will be...

“Exploring Solutions for Managing Your Subs under Earned Value

With Interactive Attendee Polling”

We promise that this will not be a “death by Power Point” presentation, nor will we take you through a lengthy product demonstration!

We will conduct a participant interactive session that explores the EVM and performance related challenges facing sub-contractors on large programs as well as the challenges facing the prime contractors who are responsible for program success.

So if...

- you have a subcontractor that is not giving you reliable EV data, or if
- you are a contractor that needs EV help, or if
- your supply chain management does not understand how to subcontract for EV, then *you need to attend the OPDEC session titled...*

“Exploring Solutions for Managing Your Subs under Earned Value

With Interactive Attendee Polling”

Wednesday, May 31st in the Exhibition Hall lunch area

Come and see how we can help you succeed!
